# TRADE SHOW DISPLAYS

Trade Show Displays help businesses to launch or showcase their product in a professional manner. Today trade shows are an important launch pad for products and services; therefore, the success of a trade show exhibit is crucial. Good **trade show displays** ensure a favorable impression on the target customer by using creative and professional presentation of the displayed product or service.

First Trade Show takes care of the trade show needs from conceptualization to creation, and execution of the trade show exhibit. We even provide trade show management services to the trade show participants offering our expertise in the field. We offer unique and attractive trade show exhibits and trade show accessories that help in capturing the customer's attention and thereby aiding in fulfilling the trade show objective of the exhibitor.

First Trade Show offers exclusive designs of **Modular Trade Show Displays** that help the exhibit to stand out amongst the gamut of exhibitors and advertisers. The wide array of trade show products includes portable trade show display units, tabletop display units, banner stands, trade show graphics, trade show accessories and creative services. All these products work as a cohesive unit and compliment each other. The products work in unison to effectively communicate the exhibitor's marketing message.

The trade show display help in displaying the trade show exhibits in a professional and creative manner. The display units of First Trade Show are artistically designed, easy to set up and are portable. You can easily transport them from one place to another. The products are a good one time investment and can be reused as per requirement. In case you are a budding entrepreneur and short of funds to buy the products then you can use the rental services offered by us.

First Trade Show also offers **Custom Trade Show Booth** that can be designed according to the exhibitor's specifications. The exhibitor can design a booth which builds and reinforces the brand identity of the exhibitor's brand.

First Trade Show helps you to make a big visual presence in the trade show market. Visit the site [www.firsttradeshow.com](http://www.firsttradeshow.com) to gain more information about the various products and services offered and use it to fuel your business ambitions.

# QUALITY TRADE SHOW DISPLAY

First Trade Show gives a wide range of quality trade show displays services including creative services, exhibit management services, trade show lighting, furniture rental and other trade show accessories.

Its portable exhibits are easy-to-assemble, lightweight aluminum framework available in a variety of models, from tabletop, to floor models in both curved and flat, to larger island configurations. These will give you **quality trade show displays** and allow you to express your message in dynamic and effective ways. It has categorized its portable exhibits under four -- Evolution, ExpoCurve, ExpoAire II and Xpressions.

Table top displays are also divided into five categories - Evolution, ExpoAire II, AirLite II, ShowMax and Show Style. Evolution is an easy-to-assemble lightweight aluminum framework available with a variety of accessories. ExpoAire II is a versatile, stackable unit that provides an excellent showcase for your products. AirLite II is a smaller version for the ExpoAire II designed for economical tabletop applications. ShowMax is a quick and easy display solution and Show Style is perfect for salespeople, teachers and recruiters.

In Banner stands displays, it has Rololight Backlit Display, Scrolling Banner Stand, Banner Stands, Retractable banner displays, Point-of-Purchase, Tower Displays. # XPRESSIONS DISPLAY

Goal of every exhibit display is to drive customer traffic to the trade show booth. An attractive trade show display catches and retains the audience's attention and helps in communicating the exhibitor's promotional message. Different types of trade show displays, such as Portable trade show display, **Modular exhibits** and Table top displays along with the various other trade show accessories help to create an impressive trade show presentation. Xpressions display is a unique three dimensional trade show Portable exhibit.

**Xpressions Display** is versatile, durable, light weight portable display that displays changeable graphics. These high quality graphics add character and drama to the trade show booth and capture the viewer's interest. These creative displays have an eye catching quality and offer a polished and chic look to the trade show booth. The attention-getting and easy to assemble fabric displays help to set up a branded environment for the exhibitor at trade show event or exhibition. Xpressions Exhibits are high impact display systems that make use of stretched fabric panel to create a 3D display. The setup of the Xpressions Booth is easy and consists of a lightweight popup framework made up of aluminum and tension fabric. The display is designed for repacking and instant assembly at the trade show site. As an exhibitor you have the advantage of infinite graphic combinations which enhance the creativity of the presentation tremendously. This revolutionary new system helps to highlight the exhibitor's brand creatively and elicit a positive response from the target audience.

These unique **trade show displays** are perfect for Event Marketing, POP Displays, Trade Shows, Exhibitions and Backdrops etc. The different sizes available are 3X3, 4X4, Pyramid shape and other different custom sizes. First Trade Show offers other types of portable displays such as Evolution, Expocurve and ExpoAireII. Each of the portable displays is unique and has its advantages. Evolution is a professional & premium design, easily reconfigurable and comes with a lifetime warranty. Expocurve is an economical design with features such as easy setup and lifetime warranty. ExpoAireII is a versatile option, which is portable, durable and can be easily setup.

First Trade Show offers a wide selection of trade show displays, products and accessories such as Portable trade show display, Modular exhibits, Table top displays, light boxes, table cloths etc. Visit the site [www.firsttradeshow.com](http://www.firsttradeshow.com) and select the trade show products that set your trade show booth apart from the regular trade show crowd.

# HANGING SIGNS

A **Hanging sign** is a suspended sign above an exhibit that is used to display graphics or identification signs. These Hanging Signs help to attract attention of the trade show attendees and guide them towards the trade show exhibit. These signs help in increasing the vertical statement of a trade show exhibit and are visible from a greater distance at trade show location.

**Hanging signs** are versatile, suspended or floating displays that consist of stretched tension fabric on an aluminum tube framework. A die-sublimated printing process is used to create a sharp and beautiful image on the tension fabric of the Hanging signs. Most of these signs are portable, easy to fold, ship and pack. The signs help to create a dramatic effect and with the right lighting produce stunning results.

The advantages of Hanging Signs are many. The signs help in guiding customer traffic to the stall as it marks the physical location of the stall. The sign helps in drawing the customer's attention to the company brand. With proper illumination these signs enhance the visual appeal of the trade show booth. If the exhibitor uses the signs creatively, these simple signs can add loads of interest and drama to the **trade show displays**. Interesting Trade Show Graphics add glamour to the exhibit and enhance the aesthetic appeal of the site.

First Trade Show offers a variety of trade show products including hanging signs such as square signs, triangular signs, circular signs, tapered squares, tapered circles, pin wheels, and many more. We offer hanging signage in sizes ranging from 5 ft to 25 ft along with custom sizes. We offer two types of hanging signs- tension fabric display and gravity tension display.

## **Tension Fabric Displays**

These displays are used to create a seamless display with stretchable material as it produces no wrinkles. Dye-sublimation process and state-of-the-art equipment are used to produce vibrant colors in the displays. The tension fabric is zipped into the frame like a "pillow case" and a backer is used to get exceptional results.

## **Gravity Tension Displays**

These Displays use "gravity" to create tension on the unit. These economical options do not offer seamless display and the displays have gaps on the corners.

All the products are shipped in a foam lined, standard, and coroplast box. We also have a hard wheeled shipping case.

First Trade Show offers Trade Show Exhibits and Trade show accessories such as **Table Top Display**, Portable Exhibits, Banner Stands, Custom Exhibits, Trade Show Lighting and Table Throws etc.

The trade show products are available in a variety of options; you can choose the one that suits your requirements. Visit the site [www.firsttradeshow.com](http://www.firsttradeshow.com) and find premium quality product for your trade show exhibits.
